TOXICOLOGY

# Subject index of volume 159

**Adduct**: Chloroform; Kidney; Liver; Mouse; Phosgene; Phospholipid; Rat; Toxicity **159**, 43

**Adjuvancy**: Diesel exhaust particles; IgE; Allergy **159**, 143

**Allergy**: Diesel exhaust particles; IgE; Adjuvancy **159**, 143

**Annexin II**: Human keratinocytes; Nickel; 2 D electrophoresis; Phosphoglycerate kinase **159**, 33

**Antioxidants**: Diet restriction; Body weight reduction; Ozone exposure; Survivability; Mortality; Oxidative stress; Lung injury **159**, 171

**Body weight reduction**: Diet restriction; Ozone exposure; Survivability; Mortality; Oxidative stress; Antioxidants; Lung injury **159**, 171

**Bones**: Cadmium; Growth **159**, 1

**Butyl benzyl phthalate**: Plasticizer; Teratogenicity; Embryonic and fetal development; $^{65}$Zn metabolism; Metallothionein; Rats **159**, 55

**Cadmium**: Bones; Growth **159**, 1

**cAMP**: Lindane; Leydig cells; Steroidogenesis; LH hCG receptors **159**, 99

**Chloroform**: Adduct; Kidney; Liver; Mouse; Phosgene; Phospholipid; Rat; Toxicity **159**, 43

**Chromium**: Cytochrome $b_5$; *P*450 reductase; Proteoliposomes **159**, 119

**Chromium**: Human keratinocytes; Nickel; Cobalt; Cytotoxicity; Uptake **159**, 23

**Cobalt**: Human keratinocytes; Nickel; Chromium; Cytotoxicity; Uptake **159**, 23

**complement natural immunity**: 2,3,7,8-Tetrachlorodibenzo-*p*-dioxin; guinea pig **159**, 107

**Crocidolite**: Lung fibrosis; Human; Cytokines; Gene expression; In vitro **159**, 81

**Cytochrome $b_5$**: Chromium; *P*450 reductase; Proteoliposomes **159**, 119

**Cytokines**: Lung fibrosis; Human; Crocidolite; Gene expression; In vitro **159**, 81

**Cytotoxicity**: Dehydrocrotonin; V79 fibroblasts; MTT; Neutral red **159**, 135

**Cytotoxicity**: Human keratinocytes; Nickel; Cobalt; Chromium; Uptake **159**, 23

**Dairy cattle**: *Escherichia coli*; Verotoxins; Foodborne pathogens **159**, 159

**Dehydrocrotonin**: Cytotoxicity; V79 fibroblasts; MTT; Neutral red **159**, 135

**2 D electrophoresis**: Human keratinocytes; Nickel; Annexin II; Phosphoglycerate kinase **159**, 33

**Diesel exhaust particles**: IgE; Adjuvancy; Allergy **159**, 143

**Diet restriction**: Body weight reduction; Ozone exposure; Survivability; Mortality; Oxidative stress; Antioxidants; Lung injury **159**, 171

**Dopamine**: Polychlorinated biphenyls (PCBs); Neurochemical effects; Synaptosomes; Glutamate **159**, 11

**Embryonic and fetal development**: Butyl benzyl phthalate; Plasticizer; Teratogenicity; $^{65}$Zn metabolism; Metallothionein; Rats **159**, 55

***Escherichia coli***: Dairy cattle; Verotoxins; Foodborne pathogens **159**, 159

**Foodborne pathogens**: *Escherichia coli*; Dairy cattle; Verotoxins **159**, 159

**Fumonisin**: Tumor necrosis factor; Tumor necrosis factor receptor; Hepatotoxicity; Mice; TNF receptor 1 knockout mice **159**, 69

PII: S0300-483X(01)00341-9

**Gene expression**; Lung fibrosis; Human; Crocidolite; Cytokines; In vitro **159**, 81

**Glutamate**; Polychlorinated biphenyls (PCBs); Neurochemical effects; Synaptosomes; Dopamine **159**, 11

**Growth**; Cadmium; Bones **159**, 1

**guinea pig**; 2,3,7,8-Tetrachlorodibenzo-*p*-dioxin; complement natural immunity **159**, 107

**Hepatotoxicity**; Fumonisin; Tumor necrosis factor; Tumor necrosis factor receptor; Mice; TNF receptor 1 knockout mice **159**, 69

**Human keratinocytes**; Nickel; Cobalt; Chromium; Cytotoxicity; Uptake **159**, 23

**Human keratinocytes**; Nickel; 2 D electrophoresis; Annexin II; Phosphoglycerate kinase **159**, 33

**Human**; Lung fibrosis; Crocidolite; Cytokines; Gene expression; In vitro **159**, 81

**IgE**; Diesel exhaust particles; Adjuvancy; Allergy **159**, 143

**In vitro**; Lung fibrosis; Human; Crocidolite; Cytokines; Gene expression **159**, 81

**Kidney**; Adduct; Chloroform; Liver; Mouse; Phosgene; Phospholipid; Rat; Toxicity **159**, 43

**Leydig cells**; Lindane; Steroidogenesis; cAMP; LH/hCG receptors **159**, 99

**LH/hCG receptors**; Lindane; Leydig cells; Steroidogenesis; cAMP **159**, 99

**Lindane**; Leydig cells; Steroidogenesis; cAMP; LH/hCG receptors **159**, 99

**Liver**; Adduct; Chloroform; Kidney; Mouse; Phosgene; Phospholipid; Rat; Toxicity **159**, 43

**Lung fibrosis**; Human; Crocidolite; Cytokines; Gene expression; In vitro **159**, 81

**Lung injury**; Diet restriction; Body weight reduction; Ozone exposure; Survivability; Mortality; Oxidative stress; Antioxidants **159**, 171

**Metallothionein**; Butyl benzyl phthalate; Plasticizer; Teratogenicity; Embryonic and fetal development; $^{65}$Zn metabolism; Rats **159**, 55

**Mice**; Fumonisin; Tumor necrosis factor; Tumor necrosis factor receptor; Hepatotoxicity; TNF receptor 1 knockout mice **159**, 69

**Mortality**; Diet restriction; Body weight reduction; Ozone exposure; Survivability; Oxidative stress; Antioxidants; Lung injury **159**, 171

**Mouse**; Adduct; Chloroform; Kidney; Liver; Phosgene; Phospholipid; Rat; Toxicity **159**, 43

**MTT**; Dehydrocrotonin; Cytotoxicity; V79 fibroblasts; Neutral red **159**, 135

**Neurochemical effects**; Polychlorinated biphenyls (PCBs); Synaptosomes; Dopamine; Glutamate **159**, 11

**Neutral red**; Dehydrocrotonin; Cytotoxicity; V79 fibroblasts; MTT **159**, 135

**Nickel**; Human keratinocytes; Cobalt; Chromium; Cytotoxicity; Uptake **159**, 23

**Nickel**; Human keratinocytes; 2 D electrophoresis; Annexin II; Phosphoglycerate kinase **159**, 33

**Oxidative stress**; Diet restriction; Body weight reduction; Ozone exposure; Survivability; Mortality; Antioxidants; Lung injury **159**, 171

**Ozone exposure**; Diet restriction; Body weight reduction; Survivability; Mortality; Oxidative stress; Antioxidants; Lung injury **159**, 171

**Phosgene**; Adduct; Chloroform; Kidney; Liver; Mouse; Phospholipid; Rat; Toxicity **159**, 43

**Phosphoglycerate kinase**; Human keratinocytes; Nickel; 2 D electrophoresis; Annexin II **159**, 33

**Phospholipid**; Adduct; Chloroform; Kidney; Liver; Mouse; Phosgene; Rat; Toxicity **159**, 43

**Plasticizer**; Butyl benzyl phthalate; Teratogenicity; Embryonic and fetal development; $^{65}$Zn metabolism; Metallothionein; Rats **159**, 55

**Polychlorinated biphenyls (PCBs)**; Neurochemical effects; Synaptosomes; Dopamine; Glutamate **159**, 11

***P*450 reductase**; Chromium; Cytochrome $b_5$; Proteoliposomes **159**, 119

**Proteoliposomes**; Chromium; Cytochrome $b_5$; *P*450 reductase **159**, 119

**Rat**; Adduct; Chloroform; Kidney; Liver; Mouse; Phosgene; Phospholipid; Toxicity **159**, 43

**Rats**; Butyl benzyl phthalate; Plasticizer; Teratogenicity; Embryonic and fetal development; $^{65}$Zn metabolism; Metallothionein **159**, 55

**Steroidogenesis**; Lindane; Leydig cells; cAMP; LH/hCG receptors **159**, 99

**Survivability**; Diet restriction; Body weight reduction; Ozone exposure; Mortality; Oxidative stress; Antioxidants; Lung injury **159**, 171

**Synaptosomes**; Polychlorinated biphenyls (PCBs); Neurochemical effects; Dopamine; Glutamate **159**, 11

**Teratogenicity**; Butyl benzyl phthalate; Plasticizer; Embryonic and fetal development; $^{65}$Zn metabolism; Metallothionein; Rats **159**, 55

**2,3,7,8-Tetrachlorodibenzo-*p*-dioxin**; complement natural immunity; guinea pig **159**, 107

**TNF receptor 1 knockout mice**; Fumonisin; Tumor necrosis factor; Tumor necrosis factor receptor; Hepatotoxicity; Mice **159**, 69

**Toxicity**; Adduct; Chloroform; Kidney; Liver; Mouse; Phosgene; Phospholipid; Rat **159**, 43

**Tumor necrosis factor**; Fumonisin; Tumor necrosis factor receptor; Hepatotoxicity; Mice; TNF receptor 1 knockout mice **159**, 69

**Tumor necrosis factor receptor**; Fumonisin; Tumor necrosis factor; Hepatotoxicity; Mice; TNF receptor 1 knockout mice **159**, 69

**Uptake**; Human keratinocytes; Nickel; Cobalt; Chromium; Cytotoxicity **159**, 23

**Verotoxins**; *Escherichia coli*; Dairy cattle; Foodborne pathogens **159**, 159

**V79 fibroblasts**; Dehydrocrotonin; Cytotoxicity; MTT; Neutral red **159**, 135

**$^{65}$Zn metabolism**; Butyl benzyl phthalate; Plasticizer; Teratogenicity; Embryonic and fetal development; Metallothionein; Rats **159**, 55
